MAKING OPPORTUNITIES KNOCK ON YOUR DOOR

Time Management ...

Continued from Page 2
 ■ Every TEN SECONDS, whether you like it or not, know it or not, you travel 298km! (your speed 109,435kmph, faster than the fastest bullet which travels at 5472kmph)

You are on an amazing journey on this planet from the minute of your first heartbeat to the last and it is even more amazing to realize that the in-between the first and last heartbeat is yours to 'manage', to 'spend' and to 'make most of'!
 And this why we need to make our transition from

'time' to 'life' management immediately because what we claim and talk about as 'TIME' is actually 'LIFE'!
 ■ When we say we spend time ... we actually spend life!
 ■ When we say we waste time ... we actually waste life!

■ When we say we kill time ... we actually kill life!
 ■ When we say we do not make most of our time ... we do not make most of our lives!
 And when you respect time, what you respect is your life and its amazing journey on this planet.
