Vacancies in a Company involved in Developing a Container Terminal

A Joint Venture Company involved in the development of a container terminal is seeking enterprising individuals for the posts mentioned below.

CONTRACT MANAGER

We are seeking individuals who will have the right blend of experience, skill and excellent communication skills in English to undertake a project of this magnitude.

Job Description:

- To assist the Project Director / Project Manager in project management
- Manage and report on all project control activities: including planning, scheduling, cost reports, department budget summaries, forecasting, provide change of direction as required, quantity reporting, cash flow forecasting, monthly project cost report, and periodic status reports for management review
- Coordinate quantity surveying and contract activities with other in-house departments, government authorities and consultants
- Checking and approval of the contractors' payment applications, variations, claims and final accounts assessed by the QS staff; settle disputes, negotiate and coordinate with contractors and consultants
- Maintain a continuous review of the progress of the contract and provide management with information regarding financial, legal and technical difficulties
- To supervise and coordinate the tender preparation and bid strategy formulation; procurement of materials and selection of suppliers and sub-contractors.
- Be conversant with contract document to protect the interests of the client. Be responsible for the financial control of the project, avoiding any cost over runs
- Any other tasks assigned by the Project Director / Project Manager.
- Work closely with the quantity surveyor in maintaining of records and reviewing of progress payment certificates.

Requirements:

- Bachelor's degree in Civil Engineering and Professional qualifications in the relevant discipline.
- More than 10 years of experience in international engineering contract management, Managing at least one large size Port Construction project in Contract management (Contract amount above 100m USD)
- Experience in container terminal design and project planning by using Primavera P6; and have sufficient experience in FIDIC (including Silver Edition)
- Membership in a recognized project management Institute would be an added advantage.

QUANTITY SURVEYOR

We are seeking energetic and qualified individuals with excellent communication skills in English who will be able to assist the contract manager in the day to day management.

Job Description:

- To assist Project Director / Project Manager/ Contract Manager
- Be responsible for providing the overall quantity surveying services/advice to the project management particularly in contract administration and cost control. He/ She will also assist in the technical due diligence and construction cost estimation for the project during the project execution stage so as to facilitate the management in making sound decisions.
- Review tender documents, including bills of quantities prepared by the consultant
- To review costings for tenders, and undertaking of costs analysis for project construction
- To perform risk and value management and cost control
- Provide advise on procurement strategy
- To check the contractors' payment applications, variations, claims and final accounts and to report to Contract Manager
- Any other tasks assigned by Project Director / Project Manager

Requirements:

- Bachelor's degree in Civil Engineering or Quantity Surveying, and Professional qualifications in the relevant discipline.
- Must have 8 years minimum experience in international engineering project cost management preferably experience in civil engineering, Managing at least one large size Port Construction project in Cost management (Contract amount above 100m USD)
- Experience in handling large-scale Maritime Civil Engineering project tender will be an added advantage.
- Must be familiar with Auto-CAD.

We are willing to discuss the remuneration package and benefits that the specific roles offer. All curriculum vitae (hard copies) should be forwarded to the following postal address within 2 weeks:

C/o - STM 581, PO Box 644 ,Colombo
