

GlaxoSmithKline (GSK) is one of the world's leading research-based pharmaceutical and healthcare companies, committed to improving the quality of human life by enabling people to do more, feel better and live longer. With a firm foundation in science, we discover, develop, manufacture and distribute vaccines, prescription medicines and consumer health products. Headquartered in the UK, with major business operations in the US, we employ more than 99,000 people in 120 countries. We discover, develop and market medicines and vaccines that meet patients' needs and provide value to our customers. We also innovate and market consumer healthcare products that help people stay healthy. Our business comprises three main types of product: prescription medicines, vaccines and consumer healthcare products.
