Unilever Internship Programme 2012

At Unilever Sri Lanka we believe in shaping our interns to be the next generation of leaders.

The Unilever Internship programme is designed to provide undergraduates a full breadth of exposure to the corporate world ahead of time. The programme helps interns to sharpen essential business and leadership skills through live business projects with the opportunity of being mentored by our experienced senior management.

The faces above capture the pride and joy of some of our interns who have secured junior management positions at Unilever over the years, which is the best testimony to the success of the programme.

Going one step further, those who demonstrate the potential to be future leaders, would be fast tracked through the Unilever Future Leaders Programme (UFLP) better known as the Unilever Management Trainee Programme.

If you are curious to discover the business world ahead of time and eager to look beyond the confines of conventional thinking whilst demonstrating leadership skills, excellence in execution and team work, this callout is for you!

If you are less than 27 years of age as at 1st October 2012 and a recent graduate or a final year undergraduate with a second class upper degree or an equivalent running average, we would like to hear from you.

To read more about Unilever Internship Programme and download the standard application form visit www.topjobs.lk/unilever
