MAKING OPPORTUNITIES KNOCK ON YOUR DOOR

Have all your wishes granted in 2009!

By NUWAN SAMARAPATHI

I am sure you know about the story of Aladdin and his magic lamp. In the story, Aladdin picks up the lamp, dusts it off, and the Genie pops up. The Genie always says one thing: "Your wish is my command!"

Now, some new versions of the story say that there are three wishes, but if you chase the story back to its origins, there is no limit to the number of wishes.

This story is a metaphor for the law of attraction and the power you have within you to create your life and everything in it!

You are Aladdin! The Genie is the law of attraction! And the power to create the life you want is within you!

What is the Law of Attraction? Simply put - you attract what you think, speak and act. We all live in an abundant universe of all possibilities, whether we believe and acknowledge it or not, and you are constantly communicating and negotiating your life circumstances with it through your thoughts, words and actions. Since the law of attraction cannot distinguish between the 'good' and the 'bad' and it simply manifest your dominant thoughts, words and actions.

I know it is quite daunting to admit that we have created our life, good or bad, and we are responsible for our circumstances. But when you come to think of it you can see how the environmental, financial, social and international circumstances of the world are generated by the thoughts, words and actions of the people in it. This is true for group and individual level as well - your attention and focus manifests your circumstances!

Going back to the story, it is exactly like having a Genie who grants your wishes. This Genie is always present and listens to everything you think, say and act. The Genie doesn't think - just acts. The Genie assumes everything you think about is what you want! Everything you talk about is what you want! And everything you act upon is what you want!

This year, make the law of attraction work for you. Become the 'master' of the 'genie' who is waiting to grant your wishes.

Take responsibility for your circumstances - know that you have created your experiences. Assigning blame to others (whether they are the politicians, global economy, your employer or the neighbour) when things go wrong and assigning praise to higher powers or disregarding credit when good things happen is equally inhibiting. Taking responsibility to who, where and what you are is the first essential step in beckoning your personal 'genie' to work for you!

Acknowledge the power within you - by saying you have created your current circumstances, you are essentially acknowledging the power within yourself! Imagine how different Aladdin must have felt with the lamp in hand, knowing that his wishes - whatever they are - will be granted by the genie. You should feel the same! You have the power to change your circumstances and create the life you want!

Recognise the power of your Thoughts, Words and Actions - be conscious of what you think, say and do as they create your life experiences, whether they are materialistic, lifestyle, relationships or opportunities, and whether they are good or

bad. Your thoughts define you, your words refine your thoughts, and your actions are essentially guided by your thoughts and your words. (Cont on Pg 04)

FINANCIAL ANALYSTS

RAM Ratings, the local unit of Malaysia's largest credit rating agency RAM Holdings, which is also an affiliate of the world's largest rating agency, Standard & Poor's, is seeking to recruit Financial Analysts to expand its local operations. We are looking for young individuals with excellent English communication skills and a head for numbers.

What we expect

We expect our analysts to evaluate and present reports to the public on the credit strength of various organisations. In addition, they must be capable of efficient multi-tasking under pressure and keeping their wits despite tight schedules, not to mention keeping abreast of current economic and business news and developments in the commercial sector. They should also be confident and opinionated with good presentation skills.

We also expect our analysts to be willing to make at least a two year commitment to stay with our organisation.

What we offer

We in-turn offer our analyst continuous, local and foreign training with an unparalleled exposure to the highest echelons of the corporate world. You will also gain in-depth knowledge of all sectors of the economy and become a member of an elite team of well respected professionals.

RAM Ratings offers the selected candidate a competitive remuneration package with rewarding career prospects and a dynamic working environment.

Qualifications required

ACA, ACMA, ACCA, AIB, CFA and / or an equivalent or higher professional and / or relevant academic qualification from a recognized university

And

At least two years' experience in, or exposure to the financial market

Applicants with the necessary qualifications are required to sit for a pre-qualification test designed to assess their analytical and communication skills.

If you are below 35 years of age and possess the required qualifications, please contact Anas on (+9411) 2553089, within 14 days of this advertisement, or e-mail him at anas@ram.com.lk requesting for a date and time for the assessment test. Your detailed curriculum vitae with names of two non-related referees and your contact telephone no. should be handed over when you call over for the assessment.
