

Wanted: Playmakers

You are the architect of the game. To you, they look for inspiration. With you, they are a force to reckon with. Your mind studies the competition, your body accelerates towards the goal. You are one with the elements. You inflame passion, you demand precision, you demand supremacy. You demand victory.

You are the playmaker.

You are what we were waiting for.

MAS Intimates is the intimate apparel arm of MAS Holdings, the largest apparel group in South Asia with an annual turnover of USD 900 million. Manufacturing bras exclusively for Marks & Spencer since its inception in 2008, the world's first purpose built eco-manufacturing plant, MAS Intimates Thurulie was lauded with the Globe Award for Sustainability Innovation in 2010, for showcasing the powerful synergies between industry, innovation and the environment.

We are now bringing together innovators, individuals who are committed to achieving greatness to our facility located in Thulhiriya, to join us in reaching revolutionary heights in bra manufacturing excellence. We are looking for playmakers to redefine perfection in manufacturing. We are looking for you.

Industrial Engineering Executive

You will provide technical input on factors such as SMVs, sewing methods and machinery to facilitate a smooth production process. Working closely with all teams, you will analyse technical parameters, solving problems where necessary. By identifying and applying new technologies you will continuously improve current processes and contribute to increasing efficiency.

You will hold a Degree in Textile & Clothing / Mechanical / Production Engineering or NDT. Recent graduates will be considered.

Production Executive

You will optimize the utilization of resources to ensure productivity and quality. You will work closely with the production teams to ensure production targets are met, with focus on continuous improvement.

You will hold a Degree in Textile & Clothing / Mechanical / Production Engineering or NDT. Recent graduates will be considered.

Quality Executive

You will identify and recommend quality requirements, technical specifications and ensure strict adherence to international quality standards. You will work with all departments to achieve first-time-through targets, and improving production processes to achieve stable long term solutions.

You will hold a Degree in Textile & Clothing/ NDT OR hold a Degree in any discipline with 2 years experience in an apparel manufacturing environment.

Bra Technician

You will ensure all technical specifications for bras are verified proactively prior to bulk production. You will liaise with other team members to maintain a smooth production flow adhering to quality standards. You will innovate new methods to ensure the easy adaptation of new styles maintaining required quality level and productivity.

You will have 2 years experience as a Bra Technician with minimum Advanced Level qualification.

Send in your resume with a passport sized photograph and the names and contact details of 2 non-related referees within 10 days of this advertisement to:
