

That's when  
it becomes  
really  
interactive.

Not all internet companies see technology with a designer's sensibilities. Not all designers have a technical viewpoint. 230 Interactive exists at this unique intersection. And that probably accounts for our success. For customers, it means an interactive and memorable experience. For clients, it means customised and integrated solutions. And we're all set to extend this unique thinking to social media as well. Come, join the company that's making a difference to clients such as John Keells Hotels, Spa Ceylon, NDB AVIVA Wealth Management, Hilton Colombo, Perera & Sons, CAL, Hayley's Consumer and Pizza Hut.
